B. MONITORING OF CUSTOMER USAGE

The Company will monitor the usage of each Customer according to the following procedures:

If the annual usage for two periods are substantially the same or if any difference is known to be attributed to unique circumstances, such as unusual weather conditions common to all Customers, no further review will be done.

If the usages differ by more than 50% and cannot be attributed to a readily identified common cause, the Company will compare the Customer's monthly usage for the same months of the preceding year.

If the cause for the usage deviation cannot be determined from analysis of the Customer's meter reading and billing records, the Company will contact the Customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the Customer's service line.

Where the deviation is not otherwise explained, the Company will test the Customer's meter to determine whether it shows an average error greater than 2 percent fast or slow.

The Company will notify the Customer of the investigation, its findings, and any refund or backbilling in accordance with 807 KAR 5:006, Section 10(4) and (5).

In addition to the routine monitoring, the Company will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading or billing processes or Customer inquiry.

RULES AND REGULATIONS

All extensions of the Company's system to serve new Customers or to increase service to an existing Customer shall be made under the Rules and Regulations of the Public Service Commission governing such extensions.

AA. BUDGET BILLING

The purpose of this plan is to permit any Customer, on an optional basis, the opportunity to equalize payments of natural gas bills rendered during the year.

This plan is available to any Customer after satisfying the following conditions:

1. A budget Customer shall make an application and sign payment agreement acknowledging monthly budget payment amount and average usage.

- a. The average usage shall be determined by dividing the twelve (12) months usage ending June by 10. The average usage shall be billed at current rates. This shall be the monthly Budget payment. This amount shall be first billed on or about September 1st of each year.

The monthly Budget payment of Customers joining the plan after September 1st will be determined by dividing the estimated use during the succeeding 6 months by 7, based on past experience if available.

- b. The monthly budget payment will be adjusted by the amount of any wholesale rate change made after the first application. The adjustment will be determined by multiplying the average use times the change in the wholesale rate. This amount shall be added to the monthly Budget payment.

- c. The billings in the months of July and August shall be "catch up" months during which any balance or overpayment will be adjusted so that the carry over to the September billing is Zero.
